

Surface Matters

Systems Cradle Part 1 by Andrea Pramuk. Alcohol Ink on Ampersand Claybord™

... because your art matters

“Ampersand panels are an integral part of my work, from the flawless painting surfaces to the art object they become when finished. They are meticulously prepared and consistent in quality from one panel to the next.”

- Andrea Pramuk | andreapramuk.com

Conservators agree that paintings on rigid and well-prepared surfaces will outlast those on stretched canvas. But not all wood panels or surfaces are the same. Artists around the world, like Andrea Pramuk, trust Ampersand panels for their work. Ampersand’s surfaces are the only truly archivally prepared wood panels on the market, and their signature painting grounds invite artists to explore, imagine, and create without boundaries.

 **Ampersand**™

Extraordinary surfaces for your art.
